

Public Safety Training – PUAFER008 Confine small emergencies in a facility

This program is targeted to participants who are existing workers in the industry who may be required to confine small emergencies in a facility.

PUAFER008 Confine small emergencies in a facility

This unit of competency involves the skills and knowledge required to confine small emergencies in a facility and it applies to occupants who are required to have first attack firefighting skills. It includes preparing for emergency situations, identifying and assessing an emergency, safely confining emergencies, using initial response equipment and reporting on the facility's emergency response.

Small emergencies in a facility include incidents such as small fires that can be controlled using a fire extinguisher; chemical spills that can be controlled using facility personal protective clothing and equipment and a spill kit; or a vehicle accident where there is no significant injury or damage.

Upon successful completion of this course, the student will have the skills and knowledge to confine small emergencies in a facility.
